Process business documents such as contracts and invoices.  
Process documents, spreadsheets, and presentations.  
Study online and watch teaching videos.  
Use note-taking software to organize knowledge points.  
Conduct remote meetings and team collaboration.

Manage emails, calendars, and task lists.

## Technology

Laptop shells are usually made using precision injection molding, where molten plastic is injected into a mold and cooled to form the shell. This process can produce shells with complex shapes, smooth surfaces and high precision. Injection molding is suitable for mass production, but the mold cost is high and it is suitable for standardized products.

## Company Information

Guangzhou Weipuna Technology Development Co., Ltd. is a factory manufacturer that mainly produces advanced high technology products of R& D, manufacturing and sales of all-in-one computer, mini pc, touch screen monitor, smart teaching& conference panel and laptop computer. Under joint efforts of our professional R& D technology team, we will commit to manufacturing and providing more high end products to global market in the future.

## COMPANY PROFILE

Guangzhou Weipuna Technology Development Co., Ltd. is a factory manufacturer that mainly produces advanced high technology products of R& D, manufacturing and sales of all-in-one computer, mini PC, touch screen monitor, smart teaching& conference panel and laptop computer. It is an integrity of factory and office with an area of over 2,000 square meters. Neat and huge work flow, well-trained and qualified

staff enormously secure smooth and efficient production.
