## Product Description

### Guangzhou Factory OEM/ODM 24 Inch 27 inch touchscreen Cheap Price Desktop Monoblock Computer Barebone All In One Pc computer

#### Product Information

This flip-up all-in-one computer combines innovative design and multi-functions to meet the needs of multiple scenarios such as office, creation and entertainment. The ultra-thin body with narrow frame design saves space and is stylish. The combination of high-performance processor and high-definition display brings smooth operation and shocking visual experience, making it an ideal choice for efficient work and entertainment.

#### Service

##### Perfect after-sales guarantee:

Quick response and professional support:

Professional after-sales team is on call at any time to quickly solve customer problems.

Precise technology and comprehensive maintenance:

Provide precise technical support and repair services for different problems to ensure that the problems are completely solved.

All-round service support: C

overing product consultation, usage guidance, troubleshooting, etc., to meet the diverse needs of customers.

Customer-centric:

Always take customer satisfaction as the core, continuously improve service quality, and achieve long-term win-win cooperation.

##### Industry customization and OEM/ODM services

It only takes 15 days from design drawings to finished product production, supporting customization of a variety of computer equipment, including servers, edge computing equipment, OEM whole machines and ODM OEM production, and providing personalized packaging customization services.

Customization process:

The customer puts forward the demand, and the factory designs the appearance of the chassis.

The computer factory adjusts the compatibility of software and hardware.

Synchronous production to ensure efficient delivery.

##### Collaboration between metal and electronics factories:

Cost control:

Independent R&D and production of core components, taking into account both quality and cost optimization.

Extreme delivery:

Rapid prototyping of metal structural parts, assembly of the whole machine within 72 hours to meet urgent needs.

#### Product Characteristics

Ultra-thin office and home computers, light and thin design, the most advanced form of desktop computers.

Save desktop space, reduce complex wiring, and only need one power cord to start the computer.

Support wall mounting.

#### Application

Business office: Appearance fashionable atmosphere, suitable business office of enterprises and units, all kinds of office software run smoothly.

Home entertainment: A stunning visual and audio experience, make your entertainment more enjoyable.

Graphic design: Strong performance, fast load large type files, easy to run all kinds of graphic design software.

## Company Information

Guangzhou Weipuna Technology Development Co., Ltd. is a factory manufacturer that mainly produces advanced high technology products of R&D, manufacturing and sales of all-in-one computer, mini pc, touch screen monitor, smart teaching & conference panel and laptop computer. Under joint efforts of our professional R&D technology team, we will commit to manufacturing and providing more high end products to global market in the future.

### Core advantages:

Focus on the research and development, production and sales of high-tech products, covering core product lines such as all-in-one computers, mini PCs, touch screen monitors, smart teaching and conference tablets, and laptops.

### Innovation-led:

Relying on a professional R&D team, we continue to promote technological innovation and product upgrades.

### Global layout:

Committed to providing high-end, leading technology products to the global market.

### Future prospects:

Continuously enrich product categories and enhance manufacturing capabilities to cope with rapid changes and demands in the market.

### Quality assurance:

Through strict R&D processes and modern production processes, we ensure the high quality and reliability of each product.

### Customer first:

Guided by customer needs, we provide personalized solutions and high-quality products to serve global users.
