

14 Inch Backlight Keyboard Slim And Light Gaming Laptop For Students Business

Our Product Introduction

for more products please visit us on allinonepccomputers.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WPNA
- Certification: CE/FCC/RoHs/ISO9001/CCC
- Model Number: Y420
- Minimum Order Quantity: 50 units
- Price: Negotiable
- Packaging Details: carton, bubble bag, stretch film
- Delivery Time: 15-30 workdays
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Piece/Pieces per Month

Product Specification

- Product Name: Ultra Thin Laptop
- CPU: I3/i5/i7
- RAM: 4GB/8GB/16GB/32GB Optional
- Storage: 128G/256G/512G+500G/1TB/2TB
- Plugs Type: US, JP, CN, AU, UK, EU
- Operating System: Windows 10/11/Ubuntu/Linux
- Keyboard Language: English
- Keyboard: Backlight Keyboard
- Warranty: 1 Year
- After-sales Service: Call Center And On-line Technical Support, Onsite Training And Inspection, Free Spare Parts, Return And Replacement, Repair, Others
- Highlight: **backlight keyboard thin lightweight laptop, j4125 cpu slim and light gaming laptops, odm thin gaming laptop 14 Inch**

Product Description

14 Inch Backlight Keyboard Portable Gaming Laptop For Students Business Plugs Type CN

Technology

First, precision mold design and injection molding are carried out to ensure the accuracy of the shell structure; then the internal bracket and keyboard module are assembled, and the backlight component is connected to the main control through a flexible circuit board to ensure uniform light emission. The screen adopts full lamination technology to reduce reflection and improve the display effect. The whole machine is assembled on an automated assembly line, and each component is fixed by screws or buckles. Finally, functional testing is carried out, including backlight adjustment, key response and screen display testing to ensure stable quality. Cleaning and appearance inspection are carried out before packaging, and storage is required after meeting the standards.

Usage

Office and study - suitable for processing documents, spreadsheets, PPT and other tasks, the backlit keyboard is convenient for efficient work or study in a dimly lit environment.

Audio and video entertainment - the 14-inch screen provides a comfortable viewing experience, suitable for chasing dramas, watching movies or browsing online videos.

Lightweight creation - can meet the needs of basic image editing, note organization, programming, etc., and the backlight design enhances the night use experience.

Portable - moderate size takes into account the screen field of view and portability, suitable for business trips, travel or daily commuting.

Network communication - supports social needs such as video conferencing and online chat, meeting remote office or family contact.

Daily Internet access - smooth operation of browsers, emails and other applications, meeting the needs of information query and online shopping.

Theory

Backlight keyboard lighting mechanism - LED lamp beads are embedded in the bottom of the keyboard, and the light-guiding film evenly diffuses the light to achieve transparent illumination of the keys.

Brightness adjustment control - The built-in light sensor or manual button adjusts the LED current intensity to change the backlight brightness to adapt to the ambient light.

Motherboard signal transmission - The keyboard input signal is connected to the motherboard through the cable, and the backlight power supply is uniformly regulated by the motherboard circuit to ensure stable operation.

Power management support - The system automatically adjusts the backlight brightness or shuts down in sleep mode according to the usage scenario to optimize the battery life performance.

Screen display linkage - Some models can automatically adjust the backlight intensity with the screen brightness to maintain visual comfort.

Modular circuit design - The backlight component is independent of the core hardware, which is easy to detect and repair in case of failure, improving product reliability.

Parameter

Type	Details	Descriptions
Product Form	Product Form	Laptop
LCD	Screen Size	15.6" 16:9
	Screen Resolution	1920*1080 IPS
Battery	Type	Lithium-ion polymer battery
	Capacity	4000MAH
System hardware configuration:		
CPU	Capacity	Intel J4125
RAM	Capacity	8GB/12GB
ROM Flash	Capacity	128GB/256GB/512GB/1TB
Camera	Front	30W
Network Connections:		
WIFI	WIFI module	802.11 b/g/n+BT4.0
Ethernet Network	USB switch to Ethernet Network	
Interface Configuration:		
Memory card socket	External memory	Support SDHC/SDXC
USB interface	Data transfer supportive	USB 3.0*2
Headphone jack	Music output	3.5mm standard headphone jack
DC connector	Power	12V/3A 3.5MM power connector
HDMI interface	Video output	MICRO HDMI
Storage(optional)	SSD	256GB
Key bord	Input device	ITE Support (US,UK)
Mouse	Input device	USB,BT Expunable Wired / Wireless Supportive
Power adapter	Standard Configuration	12V/2A
Software Configuration:		
Operating System	Operating system version	Windows10
	office	yes

Selling Points

Comfortable backlit keyboard - supports backlight adjustment, clearly visible at night or in low light environments, improving input efficiency.

Portable and thin design - 14-inch golden size, taking into account screen field of view and portability, easily put into a backpack and carry with you.

All-weather application - the backlight function adapts to different light environments, and can be used comfortably for office, study or entertainment.

Efficient productivity - optimized keyboard layout, more convenient for long-term typing, suitable for document processing, programming and other tasks.

Long-lasting battery life support - low power consumption design with intelligent power management to meet daily mobile office needs.

Cost-effective choice - complete basic functions, suitable for users with limited budget but pursuing practical experience.

Widely applicable scenarios - suitable for office, study, entertainment, travel, to meet diverse usage needs.

Company Information

COMPANY PROFILE

Guangzhou Weipuna Technology Development Co., Ltd. is a factory manufacturer that mainly produces advanced high technology products of R& D, manufacturing and sales of all-in-one computer, mini PC, touch screen monitor, smart teaching& conference panel and laptop computer. It is an integrity of factory and office with an area of over 2,000 square meters. Neat and huge work flow, well-trained and qualified staff enormously secure smooth and efficient production. Compared with traditional computer, our all-in-one computer and mini PC embody in obvious highlights of light weight, compact size, easy to carry, stable and powerful function, low consuming of electricity and radiation, healthy and friendly to environment. Our products have not only been wildly applied to business, home leisure, commercial and industrial control use and finance end service, but also exported to many overseas countries, earning excellent reputations from customers. Under joint efforts of our professional R& D technology team, we will commit to manufacturing and providing more high end products to global market in the future

Service

1. Professional after-sales service:

Provide comprehensive technical support and after-sales guarantee, including product maintenance, troubleshooting and upgrade services, to ensure that customers have a worry-free experience and win long-term trust.

2. Customized solutions:

According to customer needs, provide flexible product customization services, including appearance design, hardware configuration and function optimization, to help brands build unique competitiveness.

3. International standard certification:

The factory has passed ISO9001, CE, FCC and other international certifications to ensure that the products meet the strict environmental protection and safety standards of the European and American markets, so that customers have no worries.

4. Fast delivery capability:

With advanced automated production lines and mature supply chain systems, we are able to achieve fast production and delivery to meet the high timeliness requirements of European and American customers.

5. One-stop manufacturing service:

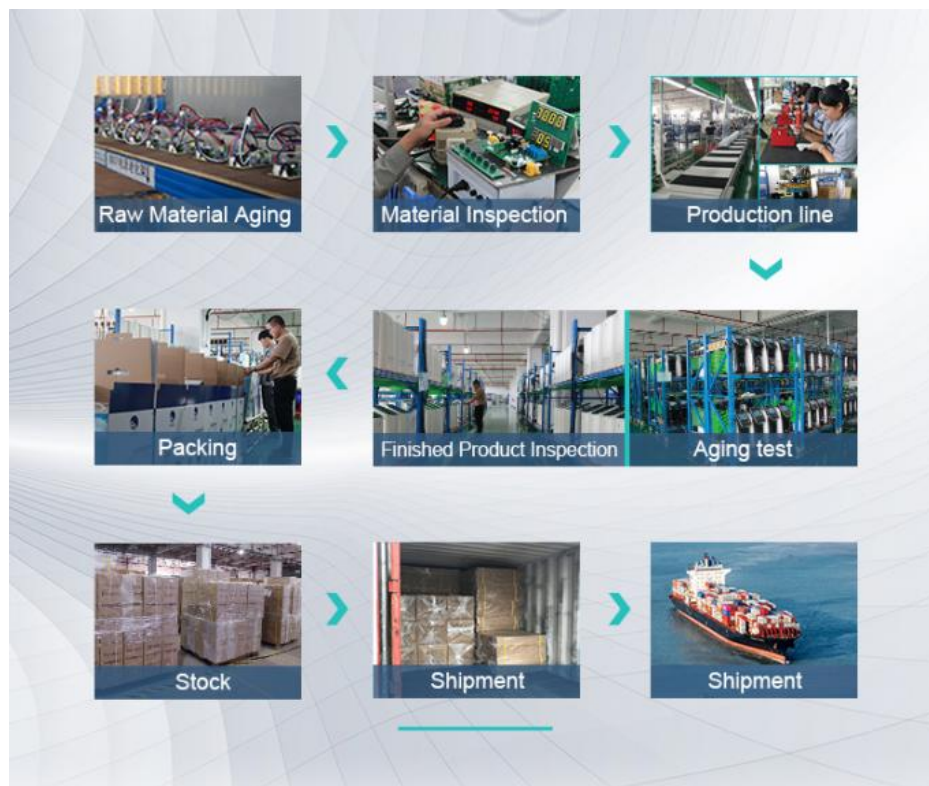

We have independent hardware and computer manufacturing factories, providing one-stop services from parts production to whole machine assembly, ensuring efficient collaboration and strict quality control to meet the needs of European and American customers for high-quality products.

FAQ

Q:Are you a manufacturer or trading company?

A:We are a professional 10 years manufacturer of Tablet PC, Netbook, All in one PC, Digital Signage, Smart Mirror and Smart Whiteboard products.

Q:Can I order some sample first and small order?

A:Yes, sample order is available for quality check and market test.

Q:What about the lead time?

A:Sample takes 2-5 days, bulk order needs 4-6 weeks based on different items and qty.

Q: How does your factory do regarding the quality control?

A: We have multiple strictly inspection from incoming material, testing on produce line, product ageing to simulate transport of package by machine of constant temperature and humidity meter, dropper tester, plug and pull tester etc., meanwhile 30+ QC workers monitoring for all produce process.

Q:What's your payment term?

A:Paypal, HSBC, L/C, T/T, Well-known international trade platformTrade Assurance.
