Product Description

Backlit Keyboard Independent Finger 14" YOGA 360° Transformer Laptop A/C/D Shell Aluminum Alloy IPS Touch Screen

Selling Points

1. Free switching of multiple forms:

360° infinite hinge brings four modes of notebook/tablet/tent/movie viewing, one machine meets the needs of office creation, conference presentation, audio-visual entertainment in all scenarios.

2. Professional touch experience:

10-point precise touch + AG anti-glare coating, with Wacom passive stylus (no need to charge), to achieve a nearly zero-delay painting and note-taking experience.

3. Military-grade durable design:

Passed 15,000 flip tests, using aerospace-grade aluminum alloy hinge + magnetic pen slot design, taking into account both strength and aesthetic details.

4. Intelligent interactive system:

The gyroscope automatically recognizes the form, flips to trigger mode switching (such as the virtual keyboard automatically pops up in tablet mode), and the operation is smooth.

5. Mobile office flagship:

14-inch narrow-frame touch screen accounts for 90%, 1.2kg ultra-light body with skin-like coating, business travel is full of elegance.

Theory

Free form in all scenarios: 360° infinite hinge design, you can smoothly switch between notebook/tablet/tent/stand mode with one hand, meeting the needs of multiple scenarios of office, study and entertainment.
Immersive touch experience: 10-point touch + anti-glare screen, with 4096-level pressure-sensitive pen, to achieve paper-like writing experience, the designer's first choice.

Military-grade durable quality: passed 20,000 flip tests, metal reinforced hinge + Corning Gorilla Glass, no fear of daily falls and scratches.

Intelligent interactive ecology: screen flips to automatically switch UI layout, supports gesture shortcut operation (three-finger screenshot/two-finger zoom, etc.), and improves efficiency by 30%.

Ergonomic design: magnesium alloy body weighs only 1.3kg, edge diamond cutting process, long-term holding without fatigue, elegant choice for business travel.

Application

1. Creative design: The stylus + touch screen is perfectly suitable for creative work such as illustrations and 3D modeling, and you can record inspiration at any time.

2. Efficient office: Multi-mode switching can easily cope with document processing and video conferencing, and improve the flexibility of mobile office.

3. Interactive teaching: The tablet mode facilitates classroom interaction between teachers and students, and supports electronic annotations and demonstrations.

4. Entertainment experience: The tent mode frees your hands, making watching dramas and movies more comfortable, and touch games more immersive.

5. Business presentation: One-click switching to standing mode makes the operation more intuitive and professional when presenting solutions.

Product Description
