

HL140S 2025 Wholesale 14 inch YOGA Touch screen FHD Multifunctional Original 2 IN 1 Tablet Laptop Low Price Notebook Computer

Our Product Introduction

for more products please visit us on allinonepccomputers.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WPNA
- Certification: CE/FCC/RoHs/ISO9001/CCC
- Model Number: HL140S
- Minimum Order Quantity: 50 units
- Price: Negotiable
- Packaging Details: carton, bubble bag, stretch film
- Delivery Time: 15-30 workdays
- Payment Terms: Western Union, L/C, D/A, D/P, T/T, MoneyGram
- Supply Ability: 10000 Piece/Pieces per Month

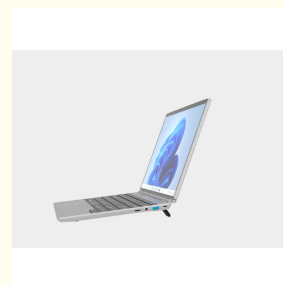

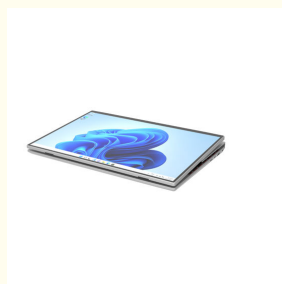

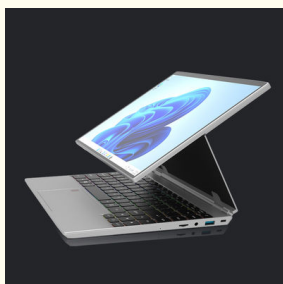

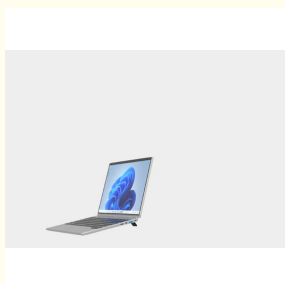

Product Specification

- Product Name: Micro Computer
- Screen Size: 14
- Series: For Business
- Processor Type: INTEL/AMD
- RAM: 4GB/8GB/16GB/32GB Optional
- HDD/SSD: 128GB/286GB/512GB/1TB/2TB
- Operating System: Windows 10/11/Ubuntu/Linux
- Plugs Type: Other
- Warranty(Year): 1-Year
- After-sales Service: Call Center And On-line Technical Support, Onsite Training And Inspection, Free Spare Parts, Return And Replacement, Repair, Others
- Highlight: **2024 Wholesale 14 inch Laptop, Multifunctional Original 2 IN 1 Laptop, 14 inch YOGA Touch screen Laptop**

Product Description

HL140S 2025 Wholesale 14 inch YOGA Touch screen FHD Multifunctional Original 2 IN 1 Tablet Laptop Low Price Notebook Computer

Specification

Product form	Model: HL140S
	14" Studio laptop
	Material: A shell metal, CD shell plastic shell metal paint, RGB seven color backlight keyboard
	Silver
Features	Touch screen computer, flat panel function; 180 ° opening and closing; D shell to increase the activity of the bracket; four ultra-narrow bezel, screen ratio of up to 92%; large round hat backlit keyboard, fingerprint recognition.
display	IPS 1920*1200 four-sided narrow-edge screen, 92% screen-to-body ratio
CPU	intel Celeron N5105 Quad Core 4 Thread 2.9GHz
RAM	Mainboard onboard memory 16G
hard disk	M2-2280 Specifications: 64g ~ 1T
Battery	High density polymer lithium battery 7.6V/4500mAh
Camera	Innovative plug-in 2 million 30 fps high-definition camera
Bluetooth	Built-in BT4.2
WIFI	Dual-band WIFI, 2.4G/5G; WIFI supports 802.11b/g/n+BT4.0(Option)1*1 or ac/a/b/g/n+BT4.2(Option)1*1 or ac/a/b/g/n+BT4.2(Option) 2*2 3165DW2 2.4G, 5G 1T1R Module
microphone	42db,2.2KΩ
trumpet	Built-in 8Ω/1w speaker
TF memory card holder	Micro SD
Type-c interface	Support
Standard USB interface	USB3.0*2
headphone jack	3.5mm standard headphone jack
HDMI interface	HDMI-MINI
Power Adapter	12V-3.0A 100-240V 50/60Hz 1.5A
Expansion equipment	Support wired/wireless mouse
	support
	Support self-purchase
operating system	Windows 10 Windows 11(Support various national languages)

Selling Points

360° free flip: supports multiple modes such as notebook, tablet, tent, etc. to meet different usage scenarios.
180° smooth opening and closing: sturdy hinge design, the screen can be completely flat, and sharing content is more convenient.
D-shell hidden bracket: one-click unfolding, stable support, more comfortable viewing and office.
Ultra-narrow frame on four sides: the ultimate screen-to-body ratio is as high as 92%, and the visual immersion is stronger.
Touch + handwriting two-in-one: precise touch screen operation, with a stylus, more freedom in creation.
Big round cap backlight keyboard: comfortable key travel, clear input in dark environment.
One-click fingerprint unlocking: fast and secure login, protect privacy data.
Lightweight and portable design: high-strength material, taking into account durability and fashion sense.
Multi-angle stable support: bracket + hinge linkage, stable stop at any angle.
Efficient heat dissipation design: intelligent air duct optimization, no heat after long-term use.

Theory

The touch-screen computer adopts a 180° flexible hinge design and a D-shell hidden movable bracket to achieve free switching between tablet and notebook forms. The four-sided micro-frame technology optimizes the screen packaging process to increase the screen-to-body ratio to 92%. The large round cap keyboard adopts a suspended backlight structure and a capacitive fingerprint recognition module to ensure accurate input and safe unlocking. The overall structure is calculated through precise mechanics to ensure the durability of the hinge and bracket in repeated opening and closing, while maintaining the thin and light characteristics of the body.

Technology

The metal body is created using high-precision CNC one-piece molding technology to ensure both structural strength and lightness; the 180° hinge has passed 20,000 opening and closing tests, and the internal multi-layer composite hinge structure achieves smooth damping; the ultra-narrow frame uses dispensing packaging technology to improve screen stability, while optimizing the internal wiring layout; the D-shell movable bracket is made of high-toughness alloy material and is formed by multi-axis linkage stamping; the keyboard module uses laser engraving backlight characters, and the fingerprint recognition

module uses nano-coating to improve wear resistance.

Usage

Mobile office: flexible switching between touch screen and keyboard, efficient document processing anytime, anywhere.

Creative design: precise handwriting touch operation, smoother drawing and note-taking.

Audio and video entertainment: high screen ratio + multi-angle bracket, more comfortable immersive viewing.

Conference presentation: 180° opening and closing + bracket adjustment, easy sharing of screen content.

Study and reading: tablet mode + narrow frame, more focused on e-books and online classes.

Light travel: thin body + multi-mode, both travel, office and entertainment.

Quick login: fingerprint unlocking is one-touch, safe and efficient.

Multi-scene adaptation: bracket + hinge design, meeting all needs of office, entertainment and creation.

WHY CHOOSE US

**One Best manufacturer**

We are a well-known manufacturer in China, because we have the advantage of scale and can achieve the coexistence of real low price and high quality.

**Two Quality inspection**

We have professional equipment to check the products before shipment. This will minimize after-sales problems and avoid carelessness caused by manual inspections.

**Three Custom**

We support MOQ 1 PCS customized LOGO, which will minimize the cost of buyers buying samples with their own brands.

**Four Product**

We promise to sell 100% brand new products, and we are determined not to sell refurbished or second-hand products to customers.

**Five Customer service**

We have a 24-hour online customer service, each customer service will patiently treat each customer like a friend.

**Six After sale**

We have a professional team to solve any product problem, and promise to give you the most satisfactory answer.

C*****e
Chile

★★★★★ **Excellent product**

Excellent product, shipping times and service. Janice helped me all the way and payed attention on even to the smallest details. I highly recommend them.

highly recommend them

G*****y
United States

★★★★★

absolutely fantastic service from customer service to product will definitely do business with them again. keep up the good work

W*****n
Singapore

★★★★★ **Product received in good condition**

Product received in good condition, specs as per discussed. Friendly and prompt reply, tip to p product from a good company. Will definitely order more soon. Thank you Janice! 希望你们公司越做越大! 🍀

N*****r
India

★★★★★

Very Professional and Helpful! Prompt response and timely delivery. Customized Product with Printed Logo and Brand Name on Phone and Box for such low MOQ is a big plus.

Very Professional and Helpful! Prompt response and timely delivery

G*****y

★★★★★

really great tablet and really good price too

really great tablet and really good price too!

C*****n

★★★★★

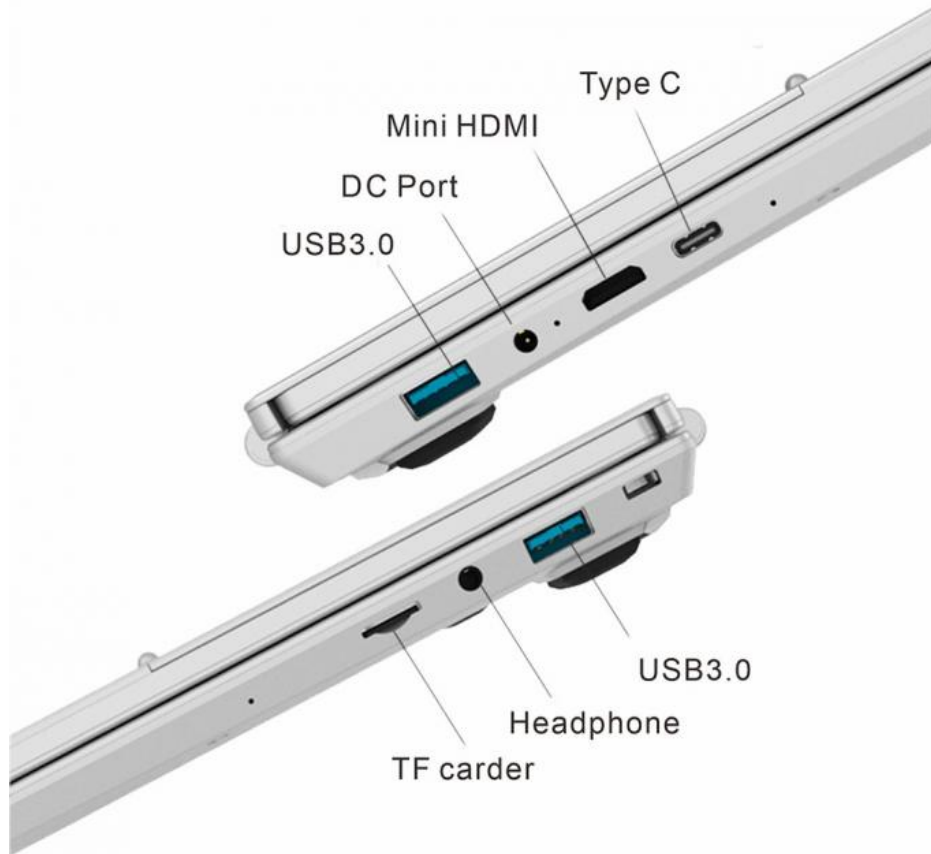

fast delivery and incredibly helpful team. The product was good quality and fairly priced. Will be proceeding with a larger order.

The product was good quality and fairly priced.

Interface

Rich interfaces to meet your usage requirements

COMPANY PROFILE

Guangzhou Weipuna Technology Development Co., Ltd. is a factory manufacturer that mainly produces advanced high technology products of R&D, manufacturing and sales of all-in-one computer, mini PC, touch screen monitor, smart teaching& conference panel and laptop computer. Under joint efforts of our professional R&D technology team, we will commit to manufacturing and providing more high end products to global market in the future

Guangzhou Weipuna Technology Development Co., Ltd. is a factory manufacturer that mainly produces advanced high technology products of R&D, manufacturing and sales of all-in-one computer, mini pc, touch screen monitor, smart teaching& conference panel and laptop computer. Under joint efforts of our professional R&D technology team, we will commit to manufacturing and providing more high end products to global market in the future.

Core Expertise:

Specializes in the R&D, manufacturing, and sales of advanced high-tech products.

Key product lines include all-in-one computers, mini PCs, touch screen monitors, smart teaching & conference panels, and laptop computers.

Innovation-Driven:

Backed by a professional R&D team dedicated to continuous innovation and technological advancement.

Global Commitment:

Focused on delivering high-end, cutting-edge products to the global market.

Future Vision:

Committed to expanding its product portfolio and enhancing manufacturing capabilities to meet evolving market demands.

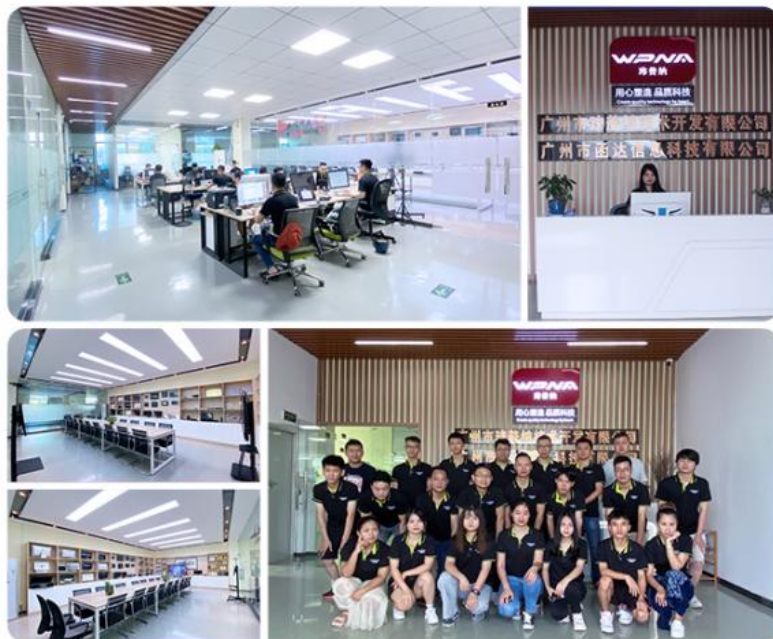

Quality Assurance:

Ensures superior product quality through rigorous R&D and state-of-the-art manufacturing processes.

Customer-Centric Approach:

Aims to provide tailored solutions and reliable products to meet diverse customer needs worldwide.

INSIDE COMPANY

PRODUCTION PROCESS

OUR CERTIFICATES

Service

1. Metal and electronic double factory linkage:

Cost advantage: self-production of core components, quality assurance and cost reduction at the same time
Rapid delivery: rapid sampling of metal structural parts, 72 hours to assemble the whole machine.

2. Meet industry customization and provide OEM/ODM services

It only takes 15 days from drawings to actual product production, supporting all kinds of computer customization: server/edge computing equipment/OEM whole machine customization/ODM OEM production, providing customers with one-step carton customization.

Phase 1: Customers make requirements, and the factory customizes the appearance of the chassis

Phase 2: The computer factory makes compatibility adjustments such as software

Phase 3: Synchronous production, high delivery efficiency.

3. No need to worry about after-sales issues:

Efficient, professional, and quick response: Equipped with a professional after-sales team, we can quickly respond to customer needs and provide efficient solutions after you consult from us.

Accurate solutions and technical guarantees: We provide accurate technical support and maintenance services for different problems until the problems are completely solved.

All-round services, considerate and thoughtful: We provide all-round services such as product consultation, usage guidance, and troubleshooting when you need it.

Customer first, win-win cooperation: With customer satisfaction as the purpose, we continuously improve service quality and establish long-term and stable cooperative relationships with customers.

FAQ

Q1: Are you a manufacture or a trading company?

A: Dear, we are direct manufacture for 18 years. We have confidence to offer you satisfying products with better quality and better price.

Q2: Do you accept OEM / ODM order?

A: Yes, we offer OEM / ODM service. On BIOS, PCB, slot color, Package, CD, instructions etc.

Q3: How many units in it?

A: 20pcs in one carton.

Q4: What payment method do you accept ?

A: T/T, L/C, Western Union is all ok. We suggest you could try Well-known international trade platform trade assurance at first, more beneficial for you.

Q5: Would you offer free samples?

A: Yes, we are glad that you have interest about our products. You are going to get available free samples in our stock.
